Norway Board of Trade

The annual Board of Trade Banquet and election of officers was held Friday evening at the Beals Tavern with about twenty present. Proprietor Robert F. Scavay served a fine banquet. Alice Butler was in charge of the dining room, assisted by Laura Nevers, Ruth Marston and Mrs. Harriett Waite.

The officers elected for the coming year were:

Pres.—Hon. Bertrand G. McIntire.
Vice Presidents—Hon. Albert J. Stearns, Stuart W. Goodwin, and Lee M. Smith.
Secretary—Raymond H. Eastman.
Treasurer—Stephen O. Jellerson.
Executive Committee—Henry B. Foster, Edwin S. Cummings, Fred E. Smith, G. Leon Curtis and Leon A. Longley.

After election of officers, Lawrence M. Carroll was chosen toast master and a social evening enjoyed when topics of local interest were taken up. The first to be taken up was Good Roads. In the past few years our locality has been placed on the map by the stride it has taken in its improved roads. They have shown to great advantage in the community, and have met with enthusiastic approval, the need of further extending the work is essential and a committee to confer with the State Highway Commission for further extension was appointed.

Comprising of Lawrence M. Carroll, Albert J. Stearns, Edwin S. Cummings, Henry B. Foster, and B. G. McIntire.

The subject of better fire protection was discussed by L. M. Carroll, George F. Hathaway, Henry B. Foster, Stuart W. Goodwin, Howard B. Young, Edwin S. Cummings, Dennis Pike and L. Fred Pike.

Remarks were made by Howard Maxam, who was in Portland the past week, at a demonstration of a 300 gallon water and chemical combination fire truck. A proposition to connect the present fire apparatus with the power at the shoe factory, thus enabling the supply to be taken from the stream which is the outlet of Lake Penesseewassee, was discussed. The main power at the present time is taken from the power station and in case of trouble at the station the department would be crippled. A committee to investigate the proposed connection was appointed consisting of Edwin S. Cummings, L. M. Carroll and H. B. Young.

Another subject discussed was that in regard to a district nurse. Dr. B. F. Bradbury, Dr. Herman L. Bartlett and Supt. Earl Stuart were among the speakers. It was thought that Norway could and should support a nurse independently and the idea of combining with approval.

This could be done by forming a corporation which would meet all expenses and it is proposed to start such a movement at once and secure a nurse.

As the report of the State Superintendent of Schools, who has recently made a survey, had not been received the subject of school housing was not discussed at length, but was laid over until the February meeting.

It has been the custom since the organization of the Board of Trade to meet annually, but to keep in closer touch with the community it was voted to hold meetings every month.

BASKETBALL

Kent's Hill 28; N. H. S. 24

Mixing "em up was the program staged by Norway and Kent's Hill at Norway Opera House Friday evening. Lovers of fast action were supplied with a package of thrills when the Kent's Hill squad beat down a four point lead held by Norway, and won out in a wild scramble in the last five minutes of speed.

Norway's jump at the opening whistle. Nevers, who had first possession from the foul line within the first three minutes. Two floor goals and another on the foul line in rapid succession put the home scrappers on a 6-0 margin.

The visitors gathered up the reins and whipped into a scoring clip. They commenced from the basket and real speed developed. Norway shook brightly in the short passes with the visitors completely non-plussed by the rapidity of action. This pretty work of advancing the ball to the ring was spoiled, when erratic shooting lost an advantage under the goal, and Kent's Hill gamblers were also unable to sight accurately and were shy on inside handling, especially during the first period. Norway had the first half 14 to 10.

Both teams displayed a burst of speed in the second grand and went over-riding in the third. Furrington, sky as ever kept his former team guessing, and handled the ball consistently during this session. He was gun-shod by Ledger and King who smashed numerous floor shots probably good for points in favor of the visitors.

Rebouts fought fiercely and scored freely in the last struggle. Kent's Hill gained more rapidly than the visitors and the score 14-14 with a pretty shot from an unfavorable angle. After this crisis the game was put on in a tooth and nail collision with the visitors a shade more clever than the home delegation. Shooting at the ring in the second game, about fifty-fifty with Kent's Hill's aim floor baskets while the seminary boys tossed 9 into the net and won.

Subby McKay and his host of royal rollers from the school made merry with songs and cheer team and a noisy lot but this only added spice to the occasion. They cheered lustily when the Kent's Hill boys made their appearance on the surface and gave a tiger for "Piddle". Of course the home boys and Coach Cusick did not forget and both girls teams received hearty support.

Summary: Score first half N. H. 14; K. H. 10. Fouls called on Norway 5, on Kent's Hill 2. Twenty minute periods. Referee Barb Austin. Timekeeper, A. Klein.

Preliminary meeting between the Norway and Kent's Hill squads was won by the visitors with a score 8 to 4. The contest was played well but furnished some amusement for players and spectators owing to numerous tumbling stunts on the waxed floor. My Dresser a former Norway teacher, accompanied the Berlin girls and saw to it their charges had an enjoyable time.

Dancing followed the games in which the four teams, students and the public participated. Good music was furnished by Anderson's orchestra. This was one of the real affairs and proved Norway High School to have a spirit of real sportsmanship despite a double defeat.

At the ringing of the door bell Mrs. Hosmer answered the bell and found her friends and a crowd of about 25 ladies.

After a time when all were settled in the living room, the contents of a large basket, which the visitors had brought was inspected and many beautiful articles in silver, cut glass, pyrex ware, china and other household articles were found.

Norway Armory A Congenial Place

Company C. of the Third Infantry is comfortably located in their armory over the American Legion rooms. Several rooms arranged as a tenement, remain intact and used for executive and social purposes.

The Sergeants have headquarters in one room, and the corporals have another where their equipment and supplies are kept. Fifty lockers for the privates occupy special rooms, with all equipment so arranged, that the company could be on the march within an hour after orders are received. General supplies are in the attic, especially fitted for this purpose, with many conveniences for the proper care of government property.

A good sized bath room adds to the comfort and health of the outfit. Rooms over the parlor and dining room have been turned over to the social side of the company where billiards and table games predominate. Smoking is allowed in these rooms, and the social atmosphere is strongly encouraged among the seventy-six enlisted men. Self control and good sportsmanship is expected at all times.

Elementary military discipline. Electric light and water are installed throughout the building.

The boys have made about everything they have for lockers and desks. Lumber was furnished by the town and it was up to the mechanical squad to do the rest. Furniture and framed pictures have been donated, but more could be used to advantage. Marksmanship trophies and photographs passed along from Company D, of former years adorn the walls, giving inspiration to a later generation following their lead.

Miss Olive A. Woodsum

After a long illness, Miss Olive A. Woodsum passed away Friday, Jan. 6, at the residence of Mrs. Bonello C. Bicknell where she had made her home the past two years. Her age was 63 years.

Miss Woodsum was born at Jamaica Plain, Mass., April 12, 1858, the only child of Cyrus and Vesta A. (Shackley) Woodsum. The family came to Norway when she was about six years of age and they went to live at the Shackley homestead on Main Street. The big fire in 1894 swept away their home but her father rebuilt on the same spot. Both parents died when she was about three years of age when the property was sold to Walter Price. After spending several months at Rockland she returned to Norway, where she had resided fifty years and more.

Miss Woodsum possessed a cheerful disposition and was well known for her generosity to all. The Woodsum home radiated good cheer under the management of the daughter and many strangers found ideal accommodations under her hospitable roof. High school students were especially desired and given a real home during their stay in the village.

Services were held at LeRoy Spiller's funeral parlors Sunday afternoon conducted by the Rev. J. E. Redden, of St. Catherine's Church of which Miss Woodsum was a communicant. Burial will be in the family lot at Rustfield Cemetery.

South Paris

Not to Change Name of Postoffice
The following letter was sent by the South Paris Board of Trade to Eugene Day Gallagher, Post Office Inspector, Lewiston, Me., under date of Jan. 8:

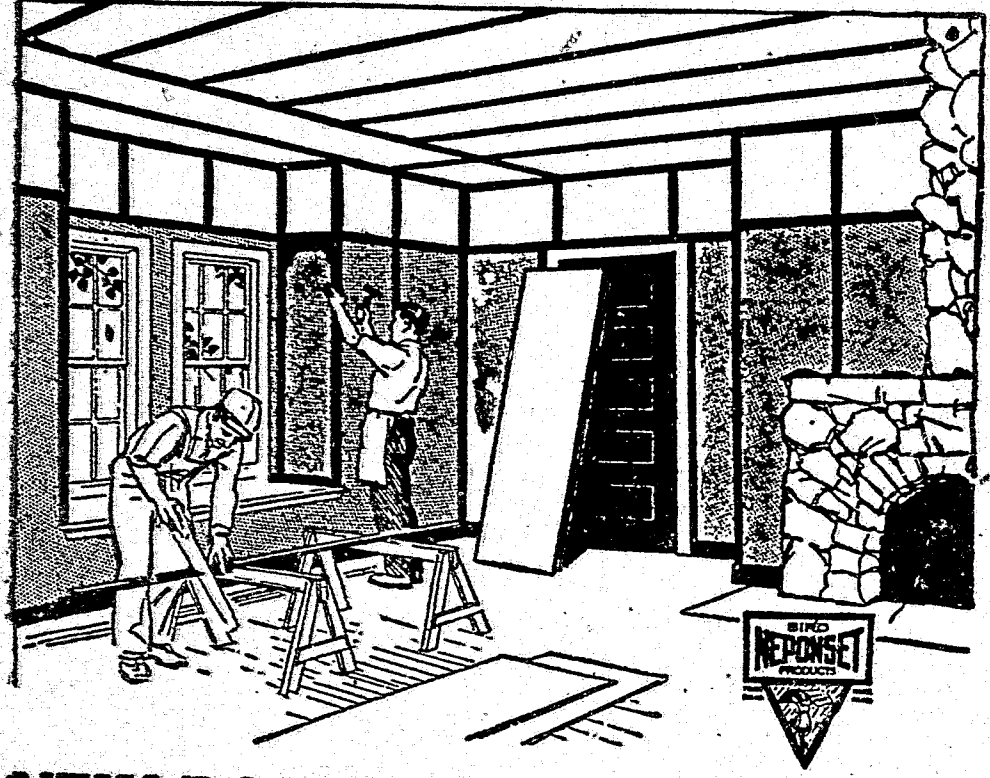

"Dear Sir: At a meeting of the South Paris Board of Trade on Tuesday evening, it was unanimously voted to withdraw the petition to change the name of the South Paris Post Office to Paris, and the Paris Post Office to Paris Hill. This decision was reached as a result of the extremely vigorous protest of a large number of the older residents of Paris Hill whose feelings are greatly respected and whose sentiments so far as they regard the history of our town are admired.

"While it was the universal opinion of those present that the change would be for the best interests of the entire town, it was not believed to be sufficiently important at this time to warrant the injured feeling which evidently would result.

"To correct an error which seems to exist and was given some prominence in the letters of opposition it is perhaps necessary to state that the proposed change originated in the South Paris Board of Trade where a committee composed of L. L. Mason, W. L. Gray and C. W. Bowker were appointed, who gave to the work their usual straight forward and energetic attention.

(Communication) TAXATION AND HIGH COST OF LIVING

The Atty. General of the U. S. is after the profiteers with a peaked stick. He is gathering information which he will publish relating to the cost of the necessities of life. This publication of retail prices in different parts of the country is expected to have a salutary effect upon profiteers. Already it was stated that the investigation had produced good results.

The Atty. General found in the District of Columbia that the price of a loaf of bread had gone up a cent, when the price of flour was lower there than it had been for years. He proposes to use his stick on the guilty parties. Good.—Comment.

The war taxes of the U. S. Government on transportation, freight rates, ice cream, soft drinks and many articles sold at the drug stores, ceased with the old year.—News Item.

Has it been noticed in what a flimsy manner the modern novel sold at the book store is put together. The paper on which it is printed is generally of the poorest quality and the covers are so flimsy as to warp in a few minutes under a kerosene light. Yet such books sell for \$1.00 or more when the same quality of book before the war sold for twenty-five cents. "As long as such books readily sell at present prices, there will be no change in the quality or price."—Book-Sellers Comment.

Bread drops to five cents a loaf in New York. Lowest since our Government entered the war.—News Item.

An Oxford County citizen in Lewiston recently noticed a number of persons from the vicinity of the Twin Villages, who had gone there for trade. Another while attending the State Grange at Portland was informed by a fellow member from the same section that he had bought in that city \$100. worth of goods. Have the business men of this part of the country lost their enterprise by allowing the trade to slip away from them.—A Citizen.

Thirteen car loads of butter from Australia and New Zealand were stranded East from San Francisco the last day of the old year. Nearly as much more was in storage. The price of butter in the local market is falling in consequence.—News Item.

When Henry Ford a few years ago, got up an expedition to Europe to stop the World War and in a famous trial showed us his ignorance of things the ordinary school boy knew, some people called him the champion ass of America. He appears now to be exercising a great deal of horse sense. He says, "The industrial conditions during the new year will be determined largely by the trend of retail prices. The existing costs, are the chief factors in present market conditions. When prices are reduced business will boom." That is gospel truth.—Comment.

Hon. Charles S. Cummings the new Mayor of Auburn has a level head on his shoulders, and a bright future before him. The people of Norway should read and reflect on what he says in his inaugural address on taxation.

He believes—and he made it very plain—that the present school building can be made "safe, sanitary and reasonably efficient" for years to come. He points out that economy is a vital necessity in these days of high taxes and economic depression; that the mere fact of 65 out-of-town pupils being enrolled is significant indication that "we are not greatly suffering for want of a better equipment;" and that the pupils are less inconvenienced than their parents would be should they be called upon to pay for a new high school. "It is always as easy to spend to other people's money as it is to confess other people's sins," he declares. He emphasizes that the high school problem is but one of many by which the people of Auburn are confronted.

Strangely enough, this high school issue did not figure at all in the campaign. But in view of the fact that architects have twice worked upon the plans of a new school, and the outgoing administration tentatively endorsed it in a resolution, this seems certain to loom large in the early days of the new administration. "I know the position I have taken will not be popular in certain quarters," said Mr. Cummings, "but I believe the taxpayers as a whole will approve of it." Lewiston Journal, News-Comment.

OXFORD

Ninety-first Birthday

Monday, January 9th, occurred the birthday of Mrs. Eunice Caldwell, the oldest person in town, having been born in Otisfield 91 years ago, the daughter of Joseph and Clarissa Morse Scribner. Mrs. Caldwell's ancestor, Dr. David Ray, was a distinguished officer of the Revolution and one of the first settlers of the town of Otisfield, having built the first mills that were located in this part of the country.

Mrs. Caldwell, with the exception of rheumatism which causes her to be quite lame, is remarkably bright and smart and is interested in all that goes on around her. She was remembered with many cards and callers.

Charles Y. Francis is sick and under the doctor's care.

News was received of the death of Wyatt T. Edwards on Sunday at his home in Otisfield. Comrade Edwards was a veteran of the Civil War and member of the 13th, 25th and 30th Maine Regimental Association, and it is believed there are only one or two veterans left in Otisfield, which sent a large number into the Civil War.

Mrs. Mabel Greenlaw, who has been confined to her room with illness for some weeks, is much improved.

The young men from Bates College who represented the Y. M. C. A. and occupied the pulpits of the churches in town were very interesting speakers and much enjoyed by the church going people. Mr. Gilpatrick, one of the young men, accompanied Mr. Joslin to Welchville in

the afternoon and spoke in the Welchville Church.

Next Sunday, Jan. 15, Rev. D. B. Holt, District Superintendent, will be present at the M. E. Church and occupy the pulpit at the morning service. It is hoped that a good congregation will be present.

OXFORD COUNTY ALIVE TO SCOUTING

The Boy Scouts is not a new organization in Oxford County. We have seen troops come and go, thrive, languish and die for various reasons.

A new era has dawned for the boys of this county. A county organization was formed about a year ago, known as the Oxford County Council of Boy Scouts. Business men are behind it; churches and fraternal orders are working for it. The idea has come to stay and many Oxford County towns have troops in uniform under live Scout-masters.

Harold C. Perham of West Paris, Acting Assistant Executive for Oxford County, advances the following program:

It is based on the principle of equal representation and has as its final goal the successful community backing of the Boy Scout Movement. There will be two committees, the Advisory Board and the Troop Committee. The Advisory Board has entire charge over all scouting in the community, while the troop committee is the body of at least three men who are in closest touch with the working troop and who form the direct official backing to the scoutmaster. In smaller communities, both committees are closely connected in regard to duties. In larger communities where there is more than one troop, the duties of the two committees are more sharply defined. In the latter case there are several distinct troop committees with representatives on the Advisory Board. In case of Community troop, all members of the troop committee belong to the Advisory Board. Where there are several troops, there is one representative from each Troop Committee on the Advisory Board.

The Board consists of one representative from each order in the vicinity, Churches, fraternal orders, American Legion and Board of Trade or Chamber of Commerce have representation and prove active allies to this onward movement.

The aim this year is to cut out all "red tape" possible and put into effect a simple and compact program easily worked and understood. The motto is "service" and cooperation of every one interested in the welfare of boys is expected.

The plan is having unanimous backing in Oxford County where Scouting is in progress. Towns where no organization exists will be canvassed by the Executive Committee and prompt action taken to get these in line with the march of progress.

Norway and Vicinity

(Continued on pages 6 and 8)

Banquet and Gifts for Norway Boy

Aaron Yeaton a Norway boy, a member of the faculty at the Amesbury, Mass. High School since 1915 has received more honors at the hands of the appreciative supporters of that institution. He is in company with the football squad and as assistant coaches, were given a banquet at the school gym on the evening of Dec. 29. Three hundred and more gathered to celebrate the close of a successful season, more particularly to properly observe a victory over their rivals, the strong Newburyport High School outfit. Rivalry has been the past few years. Aaron Yeaton as faculty coach has worked for one objective, to put his squad across no means land into the Newburyport trenches. It required three years to accomplish the maneuver. Coach Yeaton and his assistants Frank Laney and William Broderick comprised the war college that won the successful campaign for the wide awake squad to digest and accomplish with a 14 to 7 result.

The banquet was a social success. Speeches, music and a dramatic entertainment made all that could be desired.

During the height of enthusiasm Coach Yeaton was suddenly called to his feet to receive a valuable memento, presented by A. F. Rice, captain of the football team, in behalf of the players.

Pettingill, the toast-master followed with a check for \$400 as a testimonial from the school committee.

Assistant coaches Frank Laney and William Broderick were each presented fifty dollar checks as a slight token of esteem.

Local baseball fans will be pleased to know Frank Laney of football fame was prominent on the Radcliffe team in Norway during the days of Bill Leach.

He is making good in his chosen profession. That Coach Yeaton has developed a real team can be proven by their work the past season. They have won 6, lost 2 and held Salem and Colby Academy scoreless.

Games played 10, Total score Amesbury 189, opponents 59. Six years ago Mr. Yeaton commenced to build for the future and has sent from that institution many young athletes who are making good in college, and in the great University of hard knocks. Having passed through a rugged experience to secure an education, he applies a personal touch to his system of coaching and becomes a counselor and friend to every student.

The Amesbury Daily News comments as follows: "Seldom has a schoolmaster of the High School stood so high in the community as does Mr. Yeaton. He has been unequalled as a trainer in athletics, his influence has been of the highest in his intercourse with the boys and it would today be a difficult matter to fill his place. Above the value of book learning is the spirit of ethics which the boys carry with them through life. A man who can command the respect of the boys can carry through such a contest as the modern football game influences for good. When one of such sterling qualities as Mr. Yeaton is secured, it is a distinct asset to the school life and the community."

Mr. Yeaton was graduated from Norway High School in 1911 and Colby 1915, and won his letters and honors with his athletic talents. The same high mark was reached in the class rooms.

IMPORTANT TO SAVINGS DEPOSITORS

Banking Department Calls for Presentation of Pass Books for Verification

The State Banking Department is now engaged in the work of verifying Pass Books of saving depositors of Savings Banks located in South Paris, Norway and Bethel. The Statutes provide that this verification of Pass Books shall be made once in every three years and in addition to the regular annual examination of all State-Banking Institutions, Bank Commission Fred F. Lawrence, states that he has adopted the practice of verifying the Savings Deposits of all Trust Companies and Savings Banks of a city or section at the same time and by the uniform method of calling in the Pass Books for verification. This method has proven very satisfactory in other sections of the State and is now being used in the above towns. The Bank Commissioner has issued a call notifying all Saving Depositors to either present their Pass Books at, or send them in by mail to the South Paris Savings Bank, Norway Savings Bank and the Bethel Savings Bank for verification. In verifying the Pass Books a representative of the Banking Department will be stationed at each bank and will compare the Pass Books as they come in for the purpose of correcting any errors or omissions in the accounts.

As this work is done for the benefit of the depositors, the Banking Department should have the cooperation of all depositors in presenting their pass books at the bank, or sending them in by mail, on or before Thursday, January 19th, 1922.

Catarrh Does Harm—Get Rid of It.

Catarrh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

NORWAY AND VICINITY

Notes from the Red Feather Farm, Norway, Maine

For the month of Dec. 1921, 400 Single Comb Red Pullets produced 6878 eggs, at an average price of 70 cents per dozen.

These figures show that each pullet produced one dollar worth of eggs for that month. It cost one half cent a day per head for feed and I might add that one hour per day amply cares for the entire 400. These birds are housed in a new two story structure consisting of two pens 175 down stairs and 225 on the upper floor. The building was designed by the proprietor and is proving to be a very desirable type. Its dimensions are 40ft. x 20ft. with space taken on the ground floor for a grain room. It is equipped with electric lights but thus far no artificial means of continuing daylight for higher egg production has been used. The pullets have so far made a better record for January than for December. Other pens at the farm are working commendably.

Ten Newtown coal burning brooders will be added to the equipment this winter to another 3500 brooding space that will be all hatched by the early part of April. More incubators of the Standard Cyphers type will be added making a capacity of over 6000 eggs to handle the increasing growth of the day old chick business.

The mating pens will be made up in the immediate future and if nothing happens business will be in full swing by March 1st. This is the beginning of the season of the year that is most attractive to those interested in Poultry husbandry. Visitors are always welcome.

Wearry Club Improvements

Ned Packard took down the store shelving and carefully placed it in the attic of the barn. Future tenants may need it.

The paper was selected by John Woodman and all papers with others assisting. Gentle shades of lavender and pink resulted with a flaming border of black and white scroll work.

Harry Judkins put on the paper and the paint. The latter going on last. The diversity of opinion as to shade of color was the cause. It had to match the paper and no one was able to decide until the paper dried out. Mell Sampson and Elgin Greenleaf finally agreed.

The Digger Index Chief, all the way from the Pacific Coast by parcel post adorns the archway over the glaring letters, "Post no Bills." The Sell Foster Library has been dusted and rests on a table in the corner. It is easy of access and can be seen from the window by passers-by. It gives an outside literary effect to strangers.

War-clubs, curios and calendars hang on the walls. Also a nicely mounted 12 point deer head with long nose, big eyes, and large ears. The property of Mr. Nash the taxidermist loaned to beautify the place. The new chairs have not yet arrived. Neither has the revolving cuspidor, self cleaning spout and pail but are on the way.

Norway Grange

The Grange will have a picnic dinner, Saturday, Jan. 14, at the afternoon Brother J. H. Edwards of Freedom will be the guest of Otisfield, will act as installing officers and the newly elected officers will take their chairs.

The grange has recently purchased a large safe and a book case.

A dance will be held Saturday evening, Jan. 14th, at the American Legion Hall. Shaw's Orchestra will furnish the music. The bus will go to South Paris after the dance.

Ethel Everett brought to the Advertiser office, Monday, some real pussy willows which she had picked Sunday, Jan. 8th, in the vicinity of Water street. Among the guests registered at the Congress Square Hotel, Portland, were H. O. Clark and C. W. Clark, of Norway, Maine.

William Pledge of Lawrence, Mass. arrived Sunday for a visit of two weeks with his brother James Pledge.

The men of the Congregational Society are to give an Old Folk Concert in the near future. Rehearsals have commenced.

Maud Mixer entertained the Sunkist Club at her home this week. The club last week was entertained by Mrs. Burton Shaw.

The surplus has been increased from \$70,000.00 to \$100,000.00 and the undivided profits in excess of \$18,000.00.

F. J. McCarthy is making a success with the Big Minstrel Revue which he recently launched. "Mac" is Producing Manager for the Maine Amusement Exchange, headquarters at Livermore Falls, and stages benefits for local organizations. "Mac's" Revue has played his home town and Wilton under the auspices of the American Legion with even standing room gone at both stands. Other dates are booked and this versatile Irish comedian and old time trooper is in his natural element. This production headed by Mac and followed by local talent may be produced here.

A new stage curtain has replaced the familiar burlap drop at Concert Hall. William P. Morton the painter at South Paris made and painted the curtain. The inlet to Pennessseewassee Lake is the scene; surrounded with neat paneled effects in shades of brown. Two side borders are done in green and bordered with a small flower design.

If we keep the young men and young women in Maine, we win.

If the South and West get them—they win—and WE LOSE.

To hold the best of our boys and girls here at home, we must give them OPPORTUNITIES.

Opportunities are linked with our investment money—and go West if we send our capital there—or stay here in Maine if we keep our investment money at home.

Maine's destiny and our children's future are assured if we invest at home.

GAINS REPORTED BY BUSINESS MAN

Resident of Salt Lake City Adds Ten Pounds While Wife Gains 28 lbs. in Weight

John J. Perry, 370 Quince St., well known Salt Lake City, Utah, business man, in reporting remarkable gains in weight both by himself and his wife, says: "My wife gained twenty-eight pounds and I gained ten pounds in a few weeks by taking Tanlac. The change in Mrs. Perry is all the more remarkable, as she had been going down steadily for four or five years. She got no nourishment from her food and I don't believe she averaged three hours sleep out of the twenty-four."

"While my condition was not as serious as hers, I had been under the weather for some time, had no appetite and was bothered a good deal by indigestion. Tanlac has certainly proved all and more than is claimed for it with us."

Tanlac is sold by A. L. Clark Drug Co., Norway; Stovell Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Hatch, Stearns & Kimball, Lovell; H. L. Hutchins Co., North Fryeburg; L. R. Rounds & Co., Waterford, and P. G. Barrett, Welchville, Me.
